

WiFi CampPro Nano is a dual-radio designed for retrieving and extending internet access in your house, mobile home, RV, or yacht from remote WiFi hotspots or home WiFi. Power the CampPro Nano by a power bank or USB DC adapter with the USB Type-A male connector. WiFi CampPro Nano has an extra USB port to support the 4G/5G USB modem with the 4G/5G carrier's data plan in the next firmware release.

Key Features

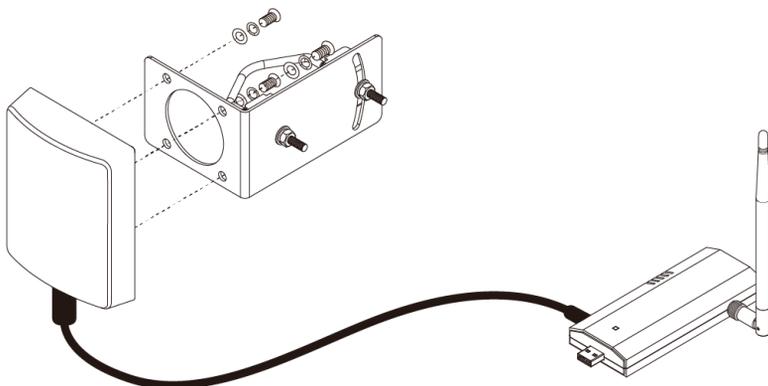

- WiFi hotspot shares internet
- Long-range connection
- High-gain Omni-directional antenna
- 8 meters low loss RF cable
- Powered by USB Type-A
- Extra USB port for 4G/5G USB modem
- Portable design

Specifications

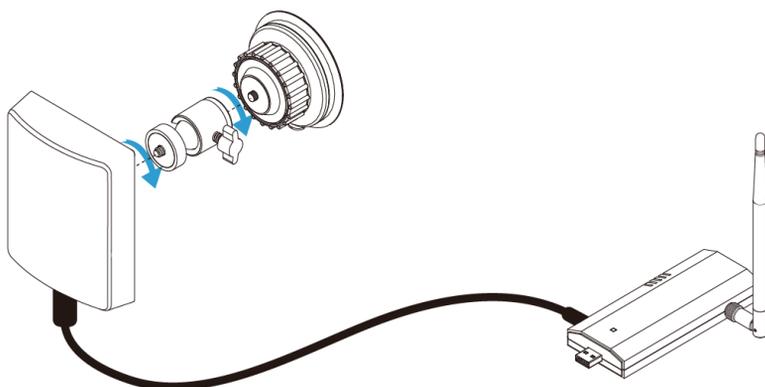

Chipset	AR9331 + AR9721
IEEE 802.11 Wi-Fi standards	IEEE 802.11 b/g/n
Frequency	2.4 GHz
Data rate	Up to 150 Mbps
USB	1x USB 2.0 Type-A male 1x USB 2.0 Type-A female
Antenna connectors	1x RP-SAM for indoor antenna 1x RP-SMA for outdoor antenna
LED	Power / Link
Power adapter	DC 5V / 2.4A USB adapter
RF cable	8 meters CFD200 /LMR200 cable RP-SMA male to N male
Antenna	1x Indoor antenna 1x Outdoor high-gain omni antenna (N female)
Dimensions	110 x 46 x 17 mm
Package contents	CampPro Nano unit Indoor dipole antenna Outdoor omni antenna Pole mount kit 8 meters outdoor RF cable 5V 2.4A USB adapter USB male to female cable
