Product Description

SolidRun CuBox Pro i2eX, 1 GHz Dual-Core, 1 GB RAM, incl. Wi-Fi The smallest computer in the world – the ultimate in sexy. Put your laptop away. At 2 x 2 x 2, the CuBox-i is the worlds smallest computer EVER. With its sleek and elegant design, the CuBox-i easily blends into your home or office décor. You'll hardly notice it, but when you do, you'll love the way it looks. **Green & Quiet** CuBox-i has a low carbon footprint and is extremely power efficient, working silently with no moving parts. **Open Source** Loaded with open source SDK, the CuBox-i mini computer can be used for multiple embedded usage scenarios. **Simple & Elegant** This simple but elegant 2x2x2 inch mini-computer comes with a minimal price tag. **Always Connected** Wired or wireless, CuBox-i can stream, play, serve, and cast a wide variety of multimedia. **Scalable** Based on SolidRuns micro-SOM technology, CuBox-i models have scalable ARM processor cores, memory size, GPU cores and other options, stretching them from simple to demanding tasks. **Infinitely Flexible** Unlike single function products, CuBox-i is totally flexible. You can install Android or Linux, Python, Perl, compilers, IDEs, and media players. Applications

- **Android Box** Combine the slick design and feature-rich specs of the CuBox-i with the huge variety of available Android applications – including media, browsing, e-mail and gaming – and you get the best big-screen Android experience. Use it at home, in the office or virtually anywhere.
- **XBMC Media Center** XBMC is the best media center experience in the smallest available package. Turn any TV into a smart TV by connecting it to the internet and stream content from the web or from local storage devices.
- **Thin Client** Lower your IT costs and improve security with the ultimate thin-client mini computer. SolidRuns high performance, low-cost solution runs on extremely low power and allows fast server connection.
- **Digital Signage** The CuBox-i enables you to deliver your marketing message clearly at a minimum cost.
- **Network Attached Storage (NAS)** High performance, fast networking and advanced local storage technology make the CuBox-i an excellent choice for NAS server solutions.
- **MPD JukeBox** Stream your music instead of playing CDs and store all your tracks in one central place.
