Product Description

Maclean MC-795 - Adjustable keyboard holder, up to 34 cm

The MC-795 is a standing/keyboard holder that is mounted under the desk. The keyboard is designed to fit the different placement options of the keyboard and has a flexible setting - 360 degree rotation, 30 degree tilt. It allows you to adjust the keyboard to a comfortable arm and shoulder position during typing.

Create more space on your computer workstation or table. The design allows you to hide the keyboard tray under your desk. The adjustable keyboard tray makes working at the computer comfortable.
