

Item no.: 312533

ARS-N19M BP - ARS-N19MBP - 2.4 GHz 9 dBi antenna + magnetic base

from **11,21 EUR**

Item no.: 312533
shipping weight: 0.30 kg
Manufacturer: ALFA Network

Product Description

ALFA Network ARS-N19MBP - 2.4 GHz, 9 dBi antenna + magnetic base with RP-SMA connector (reverse polarity) for indoor use. With this high-performance antenna, you can increase both the strength of outgoing signals and the reception sensitivity for incoming signals. The greater signal strength and increased reception sensitivity improve the reliability of short-range connections as the signals are received clearly and distinctly, reducing retransmissions due to faulty signal reception. The professional high-performance antenna is particularly suitable for receiving strong signals even in remote and hard-to-reach areas. It is also ideal for large areas such as warehouses, public spaces, wireless hotspots and outdoor spaces - wherever you need a larger reception area for your wireless network. Functions: - Amplification of the radio signal of your wireless devices (2.4 GHz) Omni-directional operation (reception in a 360 degree range) Easy to install, no configuration required!!! Compatible with e.g.: - all wireless devices that have an RP-SMA connector. Please make sure that your wireless LAN device has a compatible RP-SMA connector (reverse SMA). - Model: ARS-N19MBP- Frequency range: 2400 MHz - 2500 MHz- Gain: 9.3 dBi- VSWR: <= 1.6:1 Max.- Polarisation: Linear, vertical- Impedance: 50 Ohm- Connector: RP-SMA plug- Temperature: -10°C to +55°C- Humidity: 95% (at) 55°C
