

Item no.: 315170

Pigtail U.FL plug to MMCX plug, 90° angled, 30 cm

from **4,29 EUR**

Item no.: 315170
shipping weight: 0.10 kg
Manufacturer: VARIA Group

Product Description

Pigtail U.FL plug to MMCX plug, 30 cm
The RG178 cable: The RG178 is one of the extremely thin high-frequency cables. It has an impedance of 50 ohms and is characterised by a diameter of only 1.81 mm, a stranded inner conductor consisting of 7x 0.102 mm wires and a bending radius of 10 mm. These characteristics are only undercut by the U.FL cable. At 1 MHz, the RG178 has an attenuation of 12 dB/km. The usable frequency range extends over the ISM band at 2.4 GHz. At this frequency, the attenuation is 2.5 dB/m. The cable sheath is made of FEP, which is why the cable is also suitable for high-quality applications in a high temperature range.

- Connection: IPEX/U.FL to MMCX, 90 ° angled
- Cable length: 30 cm
- Cable type: RG178 cable
- RoHS compliant
