Product Description

ACT Cable Tie Removal Tool MG-1300

ACT Fastening Solutions Cable Tie Cutters are designed for safely cutting cable ties off of bundles of wires. Using the wrong tool such as a pair of side cutters can result in wire damage or even severing the wire. ACTs MG-1300 Cable Tie Cutter is perfect for working in tight places such as behind patch panels, A/V systems, or other head end equipment. ACTs MG-1300 is also perfect for cutting off cable tie tails, eliminating sharp dangerous edges on your cable ties.

Features:

- Fits all cable tie sizes
- Scissor action cutters
- Safety guard ensures bundle protection
- High quality heat treated alloy steel
- Auto return spring handles
- Handle lock for storage
- Ergonomic cushion grip handles
- Professional quality
