Product Description

RF Shielding OD-AM-5G17-90 - RF Interference Shielding for AM-5G17-90

- The shielding is significantly lowering the radio frequency interferences from the left, right & backside of the antenna.
- The product is protecting the signal mostly in the desirable range.
- Get the best possible signal quality, minimize the amount of network failures and improve the stability of the connection.
- The device is protected by a stainless steel cover.
- The antenna is profiling the signal in narrow range which helps to avoid mutual radio frequency interference.
- The shielding is bended in 45 degrees in order to get the best protection but also gently adjusted to respect the 90 degrees working ratio.
- Thanks to patented click system, the assembly is totally easy and takes only few seconds without using tools.
- The final design was successfully re-adjusted in accordance to customer requirements.
- Material: Stainless Steel
