

Item no.: R5SHPN **R5SHPN - RouterBOARD 5 GHz Super High-Power Wireless Card** 

## Product Description

MikroTik RouterBOARD R5SHPn, 5 GHz Super High-Power Wireless Card

The new 5 GHz super high-power wireless card for long-range links and powerful access points. This is the professional choice for reaching the last mile. 800 mW transmit power will give you the ability to reach even further than before.

The card features built-in LED indicators for wireless mode, connection status (connected, searching, disabled), TX and RX activity and wireless signal strength - just looking at the card will help with installation and alignment. The card comes with a preinstalled industrial grade heatsink, one MMCX connector and nine LED indicator lights. Due to local regulations, currently we can sell R5SHPn only to countries outside the European Union.

- Product code: R5SHPn
   802.11a: Yes
