RB230E - RouterBoard

from **138,55 EUR**

Item no.: RB230E
shipping weight: 1.00 kg
Manufacturer: MikroTik

Product Description

MikroTik RouterBoard RB230E

RouterBOARD 200 Series - Cost-Effective Routing Solution

The RouterBOARD 200 series routers offer a professional solution for the growing needs for more capacity and an easy management of enterprise networks. The routers provide a cost-effective, high-performance and secure service for connecting and setting up multiple LAN architectures.

The RouterBOARD 200 can be used to set up variable communication structures, e.g., use it for routing between VLANs or for creating high-speed intranet connections. The RouterBOARD ensures a stable performance during peak traffic periods to provide a high-speed link from a switch, hub, or server into a backbone network. The router supports policy-based routing and a sophisticated data rate management; you can use it as a stateful firewall to ensure security of your network. In addition, the RouterBOARD performs HotSpot and VPN router functions and supports many popular tunnel standards like PPTP, L2TP and IPsec security protocol.

- CPU: X86 NSC SC1100 266 MHz
- Memory: SODIMM slot for PC100/PC133 SDRAM up to 512 MB
- Ethernet ports: 2x 10/100
- Expansion:
 - 1x miniPCI Slot
 - 2x PCMCIA
 - 1x USB
 - 1x PCI
- Storage: CF slot, IDE
- Power input: 20 ~ 56 V DC
- PoE: 48 V DC
