Product Description

IT ELITE PRA24014 - 2.4 GHz, 14 dBi panel antenna + enclosure

Panel antenna with waterproof enclosure working in the 2.4 GHz ISM band with 14 dBi gain that can be mounted for horizontal or vertical polarization. Perfectly designed for operation under severe weather conditions since proper materials allow operation without the risk of corrosion even in saltwater environments. High-quality construction of the pole mounting elements guarantee an easy elevation and tilt adjustment, as well as a rock-stable operation. It can be used as a client station and as a small base station. The enclosure is compatible with the Mikrotik RouterBOARD series 411 and 433.
