

Item no.: USK1203

USK1203 - 120° Sector Kit 3 GHz

from **90,85 EUR**

Item no.: USK1203
shipping weight: 2.30 kg
Manufacturer: RF Armor

Product Description

Rocket Sector Kits

Shielding designed for the Ubiquiti Rocket Sector Antennas.

- Lower noise floor
- Cleaner signals
- Superior signal to noise ratio
- Fewer wireless retries
- Higher sustainable air rates
- Up to 50% increase in performance

Fits the following Ubiquiti antennas:

- AMS 3G-120-18 (3 GHz 120 degree 18 dB)

Measurements:

- Kit height: 29 3/8 inches
- Kit width: 11 5/8 inches
- Kit weight: 2 pounds 8 ounces

Reduces unwanted RF energy from the back, sides, top and bottom outside the desired beam width from reaching the antenna and radio keeping the radio focused on signals only from desired coverage area. The kit will NOT increase the gain of the antenna, however it will lower the noise floor providing a much cleaner signal allowing for higher sustainable air rates.

Protects the Rocket and its jumpers from the elements by completely encasing it within an aluminum box. These kits are 4th generation made from marine grade aluminum and have been refined based on customer feedback and extensive testing.
