3x CLIP Pigtail Conversion Set for FRITZ!Box and Speedport

from **18,29 EUR**

Item no.: 311839
shipping weight: 0.10 kg
Manufacturer: VARIA Group

Product Description

Pigtail U.FL-Hirose/IPEX to RP-SMA Female, CLIP Conversion Set, 3-Pack Pigtail with CLIP connector - perfect for FRITZ!Box and Speedport router to connect external antennas (outdoor or indoor). Product Description With this CLIP pigtail you can use external antennas for greater signal strength and improved sensitivity, which enhances the reliability of the communication over short ranges, because the signals can be received more clearly, which in turn reduces retransmission caused by weak signal strength. The RG178 Cable: RG178 coaxial cable with an impedance of 50 ohms. It is one of the most popular very thin RF coaxial cables for RF signal transmission. At 1 MHz it has an attenuation of 12 dB/m, at 2.4 GHz it has an attenuation of 2.5 dB/m. The cable jacket is made of FEP, which makes the RG178 suitable for professional applications even with a higher temperature range.

- Connectors: U.FL-Hirose/IPEX to RP-SMA female with CLIP connector
- Cable length: 25 cm - attenuation approx. 0.25 dB
- Cable type: RG178 Low Loss cable
