📄 Product Description

TRITON RBA-12-AD5-CAX-A1 - Wall-mounted 19" cabinet, 2-sectioned, 12 HU, 515 mm depth

The data and telecommunicationcabinet is a very successful version of two-sectioned cabinets. The parts to be opened of the cabinet enable an easy access to the rear cabinet section.

The cabinet has a robust welded construction. High-quality processing andup-to-date technologies ensure a perfect look of the cabinet.

The cabinetdoor is glass by default but can be steel or perforated if required. The hinge system enables an almost 180° wide opening of the door. The doorcan be easily removed and mounted for changing the door openingdirection.

EASY ACCESS:

The parts to be opened of the cabinet enable an easy access to the rear cabinetsection. You can easily remove the front part of the cabinet afterunlocking chain shackles. All parts are interconnected and grounded.

ADJUSTABLE VERTICAL RAILS:

One pair of vertical 19 rails is freely adjustable in any depth of thecabinet. This simplifies mounting the devices and organizing connecting cables.

BREAKOUT-TYPE BLANKING PANELS:

Cable openings covered with breakout-type blanking panels are ready inthe top, bottom and rear part of the cabinet. Use a plastic frame and ablanking panel with a brush that are part of the cabinet supply toseal the cabinet opening against dust.

Size in mm:

- 635 x 600 x 515
