Product Description

ADR CF Combo Producer 31 Slots, CF Duplicator

ADR CF Producer

Flash media has become a more and more popular media in distribution which applying by various kinds of electronic devices for store and distribute data. ADR CF duplicator is a standalone, high speed, high efficient equipment which provides an easy copy solution.

High Speed Mass Copy

Each slot has independent and dedicated channel which support up to 33 MB per second bandwidth. It does not matter if your target is 1 CF card or 39 MicroSD cards; the target quantity will not effect the copy speed. Smart source analysis feature copies only data area to enhance the copy efficiency.

Copy+Compare Function

Bit by bit compare through hardware after copy guarantees the data copy integrity. Its a fast, reliable and convenient solution.

Asynchronous Copy Technology

Asynchronous copy loads data to buffer memory automatically and allows each slot to copy independently and continuously.

- Standalone operation, no need of PC, has no risk of virus infection.
- High writing speed without bandwidth sharing while copying numerous Flash devices. The maximum speed support up to 33 MB per second.
- Unbeatable compatibility. ADR Flash duplicator has been approved and adopted by many worldwide big name flash devices makers. From high quality to downgrade flash, this duplicator is well experienced and highly compatible.
- Smart asynchronous copy. For small size content pre-load job, synchronous allows non-stop copying by continuously device plug and pull.
