Product Description

Mikrotik S+AO0005 - SFP+ Direct Attach Active Optics Cable, 5 m

5 m SFP+ 10 Gbps direct attach Active Optics cable. This is a highly cost-effective way to connect two SFP/SFP+ devices over very short distances, within racks and across adjacent racks. It works with all MikroTik products with SFP/SFP+ ports, including the new RB4011 series (the RB4011 series routers are not compatible with the passive direct attach cables S+DA0001 and S+DA0003).
