## ASX00008 - Arduino MKR Mem Shield

**15,66 EUR**

Item no.: 326468  
shipping weight: 0.10 kg  
Manufacturer: Arduino

### Product Description

#### Arduino MKR Mem Shield

Are you developing a complex IoT device with your MKR board and running out of memory? Add Flash memory and microSD storage to your MKR board, and allow over-the-air updates, with the Arduino MKR MEM Shield.

The Arduino MKR MEM shield will allow you to add more flash memory and storage. It provides 2-megabytes of flash memory. It also includes a slot for adding a microSD card to store several gigabytes of storage. This can allow you to store data for later analysis.

- Interface: SPI
- Micro SD card slot: 1
- Micro SD card: Not included
- SPI Flash memory: 2 MB
- Circuit operating voltage: 3.3 V
- Compatibility: MKR
