Product Description

Teltonika FMB204 - Waterproof tracker with high-capacity interna Li-ion battery

FMB204 is a special waterproof (IP67) tracker with GNSS, GSM and Bluetooth connectivity. It is designed to work longer without external power supply - an internal Li-ion battery enables the device to operate up to 6 days in power saving mode. FMB204 is perfectly suitable for motorbike, scooter and water transport tracking, it can also be used in agricultural machinery and trailer monitoring, security or emergency service fleet management. The device supports various Bluetooth Low Energy sensors, beacons, hands-free headsets, as well as firmware and configuration updates via Bluetooth. **Additional Options: SIM Card and CarControl Tariffs**

VARIA offers you the possibility to purchase an all-in-one solution for your fleet management together with the tracker. The VARIA GPS CarControl tariffs are the ideal solution when it comes to locating mobile objects.

In addition to a route archive with driving and standing times, the Compact tariff also offers you detailed evaluations of operating times, geo-zones with automatic alarms, anti-theft protection and many other features that will help you to make your fleet management easier and more efficient.

In addition to the functions of the Compact tariff, the Perfect tariff also offers an electronic logbook, which is forgery-proof and guaranteed to meet all the requirements of the tax office.

If you choose one of these options, the VARIA technical team will install a 2G prepaid SIM card with 400 MB data volume in the tracker you purchased and carry out the initial setup of the VARIA GPS CarControl all-in-one solution for you. When you receive the tracker, it will be ready to use.

The VARIA GPS CarControl tariffs are valid for one year. If you would like to continue using the service after one year, you can conveniently extend the tariff with us for another year.

Of course, you also have the option of using a different fleet management solution of your choice. In this case, you can select only the required IoT prepaid SIM card for the tracker.

Module

- Name: Teltonika TM2500
- Technology: GSM/GPRS/GPS/Bluetooth

GNSS

- GNSS: GPS, GLONASS, GALILEO, BEIDOU, SBAS, QZSS, DGPS, AGPS
- Receiver: 33 channels
- Tracking sensitivity: -165 dBm
- Accuracy: < 3 m
- Hot start: < 1 s
- Warm start: < 25 s
- Cold start: < 35 s

Cellular

- Technology: GSM
- 2G bands: Quad-band 850/900/1800/1900 MHz
- Data transfer: GPRS Multi-Slot Class 12 (up to 240 kbps), GPRS Mobile Station Class B
- Data support: SMS (text/data)

Power

- Input voltage range: 6 - 30 V DC with overvoltage protection
- Internal back-up battery: 1800 mAh Li-Ion battery (6.66 Wh)

Bluetooth

- Specification: 4.0 + LE
- Supported peripherals: Temperature and humidity sensor, headset, OBDII dongle, Inateck barcode scanner, universal BLE sensors support

Physical specifications

- Dimensions: 72.5 x 73 x 27.3 mm (L x W x H)
- Weight: 205 g
