PHIEPSP05-D - Outdoor Motion Sensor with Magnetic Holder and Lens Cover

41,96 EUR

Item no.: 327271
shipping weight: 0.10 kg
Manufacturer: Philio

Product Description

Outdoor Motion Sensor with Magnetic Holder and Lens Cover

The Philio Motion Sensor has a compact spherical design and detects motion in a distance up to 10 meters. It can be installed quite easily with the magnetic wall mount. This allows you to place the sensor inconspicuous in your living area, switching the light automatically for example. Furthermore, you can use it for alarm scenes.

In addition, the battery-operated sensor is suitable for outdoor use. It also includes a lens cover. With the cover, you can hide an area which is not to be detected by the motion detector.

Features:

- Motion sensor in spherical design
- With magnetic wall mount
- 360° monitoring area
- Protection Class: IP43 (weatherproof)
- Scope of Delivery: sensor incl. battery, wall mount, lens cover
- Power Supply: CR123 battery
- Wireless Technology: Z-Wave Plus
- Dimensions: 53x50x50 mm
