Product Description

EP-CHUPXTREMECI - UP Xtreme Chassis

For the UP Xtreme board with its capability to deploy a deep learning model, we have to take its thermal conductivity seriously. Aaeon chose a copper thermal block to conduct the heat from the UP AI Core XM 2280 (M.2 2280 B+M key) to ensure the heat emitted is drained efficiently and make the UP Xtreme board operate optimally and stably. Including Vesa, DIN rail and SATA cable.

- Dimension: 190 (L) x 129 (W) x 78.6 (H) mm
