Product Description

Delock Toolkit - For Computer and Smart Phones, 25 parts

This tool set by Delock includes a large selection of screwdrivers. In the pocketable and leather look case, the set is safe to transport and quickly ready for use.

Robust and durable

The screwdriver bits are made of high quality CrV steel. By alloying with chrome and vanadium, the steel hardens better and the steel becomes more resistant to abrasion and corrosion.

Always the right screwdriver at hand

Whether for repair of a smart phone, the installation of computer accessories or in model making - with this extensive tool set by Delock, the right screwdriver bit is always available.
