Item no.: JVS-FRT-P8
shipping weight: 4.00 kg
Manufacturer: Jovision

Product Description

JVS-FRT-P8 - Face recognition/temperature detection/mask detection 3-in-1, wall mounting

The innovative and ideal solution against Covid-19 and more. The JVS-FRT-P8 is a triple scanner specially developed to avoid the transmission of the new coronavirus Covid-19/Sars-CoV-2. The scanner can also be used as an access control for companies.

In connection with an automatic door it can be guaranteed that only registered personnel get access to the company. A detailed analysis can be called up if required.

Temperature and Mask Detection

- Temperature range: 30°C - 42°C
- Accuracy: +/-0.3°C indoors
- Detection distance: 0.3 - 0.6 m
- Temperature detection: Supported
- Mask detection: Supported
- Voice alarm: Supported (for abnormal temperature and missing mask)

Face Recognition

- Recognition accuracy: ?99.7%
- Recognition time:
- Face database: ?20 000 faces
- Recognition distance and height: Distance: 0.5 ~ 2 m; Height: 1.2 ~ 2.2 m, adjustable
- Recognized face angle: ?30°
- Lens angle: 2.8 mm, H: 117.8°, V: 64.1°, D: 141.9°
- Black & white list: Supported

Interface

- Ethernet: 10M/100M Ethernet, RJ45 port
- Wiegand interface: 1x for output
- RS232 & RS485: Supported
- Alarm output: Supported
- Micro-SD card: 32 GB built-in; up to 128 GB supported
- Audio input and output: Supported, with built-in speaker
- USB interface: Optional

General

- Working temperature: 15°C - 35°C
- Working humidity: RH 5 ~ 90%
- Power supply: DC 12 V, 3.33 A
- Power consumption: ?20 W
- Dimensions: 273 x 144 x 25 mm
- Diameter for installation: 30 mm
- Screen size: 8-inch, full-view IPS LCD screen
- Weights: 2.5 kg (without mount)
- Installation: Wall mounting
