Item no.: 345634
SO-38043 - Power (2-pin) plug with click lock, solder connection

9,11 EUR

Item no.: 345634
shipping weight: 0.10 kg
Manufacturer: VARIA Group

📄 Product Description

Industrial connector S1 - Power (2-pin) plug with click lock, solder connectionThe high-quality, precisely fitting and robust connectors have been developed for the most demanding industrial applications. The use of modern production facilities, standardised processes and high-quality materials ensures consistently high product quality.Series 1 - Metal version with "click" lockThe quick and easy-to-use "click" lock, in combination with the solid metal/high-performance plastic housing and gold-plated contacts, reliably ensures secure and stable connection and transmission performance at all times.Areas of applicationThe industrial connectors work extremely reliably and stably even in the most demanding application scenarios. Wear-resistant, anti-corrosive, waterproof and dustproof - these properties make these connectors all-rounders for use in automation, electronics, energy, communication, lighting and safety technology.- Locking technology: "click"- Protection class: IP65/IP67- For M20 cut-outs- Power (2-pin) plug with click lock- Durability: > 500 mating cycles- Operating temperature: -40°C to +80°C- Number of contacts: 2- Solder connection- Housing material: metal with zinc alloy (pearl hard chrome) and high-performance plastic- Contact material: copper alloy (gold-plated)- Sealing: silica gel/silica gel
