Product Description

Ultra Low Loss Double Shielded Antenna Cable RG58, by the meter

The 50 Ohm CS29 cable (RG58 C/U cable) is a 5 mm high quality double shielded high frequency cable. One of the characteristics of the Panorama Antennas CS29 cable is the flexibility of the cable. The dielectric consists of white polyethylene, which is insulated with an aluminum foil and a wire mesh. The cable sheath consists of thermoplastic elastomers.
