Product Description

ARS-AS087 - Antenna extender with magnetic mount

ARS-AS087 is a type N antenna connector with magnetic base.

Equipped with a heavy-duty magnet to ensure positive mounting, ARS-AS087 is ideal for many indoor and outdoor applications where antenna portability is required. This mount includes a 3 m long, high-quality and low-loss LMR@-200 RF cable with RP-SMA (male) antenna connector at the end, suitable for WiFi equipment.

- Antenna connector: 1x type N female (magnetic base); 1x RP-SMA male (RF cable end)
- Maximum input power: 50 W
- Frequency range: 0 ~ 6 GHz
- Impedance: 50 Ω
- RF cable type: LMR@-200
- RF cable length: 3 m
- Operating temperature: -40°C ~ 70°C
- Weight: 280 g
- Dimensions: 87 mm
