## 11493 - USB 2.0 Switch 4 PC to 1 Device

**40,49 EUR**

Item no.: 351774  
shipping weight: 0.40 kg  
Manufacturer: Delock

### Product Description

#### USB 2.0 Switch 4 PC to 1 Device

This USB switch by Delock allows to share a single USB 2.0 peripheral device with four different computer systems. This avoids the cost of purchasing multiple peripherals or the hassle of swapping cables from one system to another.

#### Memory function

Port selection works via a button, regardless if one of the computer systems is disconnected. The last setting is saved, even if the unit is shut down and restarted.

#### Secure mounting

A built-in magnet allows the switch to be attached to suitable metal surfaces; alternatively, the case has an option for wall mounting with screws.

#### Package content

- Switch
- 2x cables USB A male to USB B male, length ca. 1.8 m
- User manual
  
- Connectors: Input: 4x USB 2.0 Type-B female; Output: 1x USB 2.0 Type-A female
