

Item no.: 354354

## Patch cable fibre optic duplex OM3 armoured cable (multimode, 50/125) LC/LC steel armour 20 m

from **90,94 EUR**

Item no.: 354354  
shipping weight: 0.30 kg  
Manufacturer: VARIA Group

### Product Description

Fibre optic patch cables enable different network components to be connected to each other and ensure loss-free data transmission. Different quality classes (OMx/OSx) facilitate the qualitative and functional differentiation of a fibre optic patch cable.

Compared to standard fibre optic patch cables, these cables are additionally protected by a flexible and armoured steel tube as well as Kevlar strands and a metal braiding. Due to this high-quality and robust cable construction, the cable is tread-proof, offers protection against rodents and is used wherever the highest reliability is required.

The use of high-quality materials and modern production facilities as well as continuous quality controls during the production process ensure loss-free signal transmission and consistently high quality. Every single patch cable undergoes testing after assembly. After successful measurement, an individual measurement/test protocol is enclosed with each patch cable.

- Fibre optic (FO) duplex patch cable
- Connection 1: LC (UPC)
- Connection 2: LC (UPC)
- Incl. dust protection caps
- Exchangeable polarity / coding
- Attached bend protection sleeve
- Fibre grade: OM3
- Fibre type: Multimode 50/125µ
- Cable construction: Duplex
- Jacket material: Halogen-free (LSZH)
- Quality: Each cable comes with its own measuring/testing protocol
- Colour: Aqua (OM3)
- Length: 20 m
