

Item no.: 357182

Cable tie with expansion anchor L 140 x W 4 mm black 10 pcs.

0,85 EUR

Item no.: 357182
shipping weight: 0.10 kg
Manufacturer: Delock

Product Description

These cable ties from Delock can be used for space-saving bundling of individual cables, wires and hoses. Due to the additionally integrated expanding anchor, these cable ties are suitable for fixing in drilled holes, e.g. in a PC housing or on a mounting plate. The anchor is pressed into the pre-drilled hole of a plate and then on the back of the plate the anchor spreads out again and locks into place. The cable ties offer good resistance to high temperatures and are characterised by their tensile strength.

- Length: approx. 140 mm
- Width: approx. 4 mm
- Diameter of anchor: approx. 7.05 mm
- Fixing hole diameter: approx. 5.2 - 5.5 mm
- bundle diameter: max. 30 mm
- Colour: black
- Can be used once
- Material: nylon 66
- Ambient temperature: -40 °C ~ 85 °C
- Fire resistance class: 94V-2
- Tensile strength up to 18 kg
- Package contents: 10 x cable ties with expansion anchor
