shipping weight: 0.50 kg
Manufacturer: Shelly

Product Description

The Shelly Pro 2 is a DIN rail mountable multiple switch. It can be used with Wi-Fi, LAN and Bluetooth connectivity. The relay is mounted on a DIN rail in your control box. The Shelly Pro 2 offers advanced security features and is compatible with most popular home automation platforms.

Control a wide range of devices

Shelly Pro 2 is suitable for controlling and measuring the consumption of lighting, appliances, pool systems, heaters and much more. The relay is equipped with temperature, overload and overvoltage protection to enable complete intelligent automation without additional cables or wiring. Shelly Pro 2 is perfect for homes, offices, shops, businesses and manufacturing facilities, as well as new construction.

Highly compatible

Use your favourite voice assistant to control the Shelly Pro 2. Shelly Pro 2 is compatible with most popular voice assistants such as Amazon Alexa.

No hub required

You can control the Shelly Pro 2 directly from the Shelly Cloud app without the need for a hub. Manage and control your home or facility, set scenes and schedules, and adjust settings wherever you are - via cloud access or just your local network!
