Product Description

The USB 2.0 camera from Delock offers a very compact design with high resolution and low power consumption. It is ideal for installation in industrial components such as IPCs, embedded systems, sensors and in device construction. The use of a light-sensitive sensor with backside illumination (BSI) extends the application range of this camera.

- Connection: 1x USB 2.0 type-A plug
- Resolution: 2.1 megapixel
- With optical IR filter
- Supports output data YUY2, MJPG
