Product Description

This pre-assembled fibre optic splice box from Delock can be installed in a 19" equipment cabinet and is ideal for quickly and securely setting up the fibre optic network in buildings. The fibre optic box is fitted with 6 LC duplex couplings and equipped with 12 pigtailed that are already inserted in the splice cassette ready for splicing. The front panel can be pulled out, making it possible to work on both sides of the couplings without removing the cover.
