

Item no.: 358106

RaZberry 7 (PCB antenna)

from **51,80 EUR**

Item no.: 358106
shipping weight: 0.50 kg
Manufacturer: Z-Wave.me

Product Description

The Z-Wave.Me RaZberry 7 turns your Raspberry Pi into a fully functional Z-Wave controller. The RaZberry 7 is compatible with Raspberry Pi 1/2/3A/3B/3A+/3B+/4B as well as Orange Pi and works with open source projects like Home Assistant, OpenZWave, OpenHAB, FHEM and Domoticz. Best of all, there are no additional or monthly fees as all necessary licences are already included in the price.

The Z-Wave.Me RaZberry 7 guarantees you extended transmission range through: First-class firmware that uses the latest hardware capabilities such as adjustable transmission power. Please note: The package only includes the Z-Wave plug-in module and the Z-Way software. The Raspberry Pi board is NOT included.

Highlights:

- Z-Wave.Me RaZberry 7 for Raspberry Pi with PCB antenna
- Z-Wave 700 series - higher range, more efficient and better performance compared to older generation series
- Radio technology: Z-Wave Plus V2 - SmartStart - S2 Security
- Compatible with Raspberry Pi 1/2/3A/3B/3A+/3B+/4B and Orange Pi
- Works with Home Assistant, OpenZWave, OpenHAB, FHEM and Domoticz
- Extended transmission range
