📄 Product Description

This USB Type-C™ to serial DB9 adapter with RS-232 tester from Delock combines two functions in one device. The RS-232 port provides a connection for serial printers, measuring devices, machines, etc. In addition, the nine LEDs in the connector provide simultaneous information about the status of the RS-232 data as well as the USB power supply. The RS-232 tester can be used for troubleshooting and helps to analyse the serial control and data lines.
