RBMAPL-2ND - RouterBoard mAP lite, 650MHz, 64MB RAM, 2.4 GHz 802.11b/g/n

from **27,54 EUR**

Item no.: RBMAPL-2ND
shipping weight: 0.20 kg
Manufacturer: MikroTik

📄 Product Description

MikroTik RouterBoard mAP lite

The mAP lite is our smallest wireless access point. It is barely larger than a matchbox, MikroTik even had to use a special Ethernet port to match its slim profile.

You can carry it anywhere: use as a travel router to extend that hotel internet to all your devices, or as a client device to improve your laptop signal range, the tiny mAP lite will be always with you.

It comes with a built-in magnet, so you can attach it to any ferrous surface, or, if those are not available, a metallic plate with an adhesive back is also included.

It can also serve as a simple configuration tool for your servers, if there is no Ethernet on your mobile device, plus, it neatly attaches to the rack with its magnet. The mAP lite is a dual-chain 802.11 b/g/n device and operates in 2 GHz.

- Product code: RBmAPL-2nD
- CPU: QCA9533
- CPU nominal frequency: 650 MHz
- CPU core count: 1
- Size of RAM: 64 MB
- 10/100 Ethernet ports: 1
- Wireless: 2.4 GHz 802.11b/g/n, dual-chain
- PoE in: Passive and 802.3af/at
- Supported input voltage: 5 - 60 V
- Dimensions: 48 x 49 x 11 mm
- License level: 4
- Operating system: RouterOS
- Max. power consumption: 3.5 W

Included

- 5 V/1 A power adapter
- K-44 mount kit
