🖹 Product Description

JOY-iT(R) RB-LCD-10-2 - 10" Touchscreen Display with Metal CaseThis 10.1" touchscreen display with metal case is a rugged all-rounder and suitable for a wide range of applications. It has a robust construction and the matte black metal case complements the display's hard coating (H3).

The display also works with conventional PC systems via the HDMI and VGA ports. Small highlights are the BNC and AV ports, which can also be used to connect camera systems. You can work on your new Open-Source project in your workshop with the support of Raspberry Pi and Co and at the same time you have the possibility to perform the finest soldering work accurate to the milimeter using a camera microscope.
