Product Description

Mikrotik RBLHGR&R11e-LTE - LHG LTE kit with 17 dBi 25° directional LTE antenna

The LHG LTE kit is a device for remote locations that are within cellular network coverage. Mount it outdoors, on a pole, mast or any high enough structure, and connect even where cell phones cant. Due to its large sized high gain antenna, the device is capable to connect to cell towers in extreme rural locations, giving you the ability to provide last mile Internet access where nothing else is available.

The unit is equipped with one Ethernet port and has a built in high quality Category 4 modem for speeds of up to 150 Mbit/s downlink and 50 Mbit/s uplink.

The RBLHGR&R11e-LTE includes LTE modem that supports international LTE bands 1, 2, 3, 7, 8, 20, 38 and 40.
