from **118,65 EUR**

Item no.: 325107  
shipping weight: 0.50 kg  
Manufacturer: Triton

### Product Description

Triton RAC-VP-R01-A1 - 19" Cable Reserve Holder, 1 U

The cable reserve holder is used for safe storage, in particular of metal installation and optical cables in the distributor, and their protection. The bracket can be installed vertically to the vertical (10 U) 19" rails (usually on the back of the distributor) or, after rotating the fixtures horizontally, between the verticals, similar to a classic shelf. The support pins mounted around the central opening ensure the bending radius of the cables and prevent their damage. [Accessory Kit](#)

- 1x mounting plate for cable reserve
- 4x support pins 1 HE
- 4x support pins 2 HE
- 4x support for mounting plate, short
- 2x support for mounting plate, long
- 2x medium vertical bracket for 19" accessories
- 2x mounting kit (4x cage nuts M6, 4x screws M6x12)
