Product Description

TP-Link MC200CM - Transceiver, 10/100/1000TX/1000FX MM, SC, 0,5 km

The MC200CM is a media converter designed to convert 1000BASE-SX fiber to 10/100/1000Base-T copper media or vice versa. Designed under IEEE802.3ab 10/100/1000Base-T and IEEE802.3z 1000Base-SX standards, the MC200CM is designed for use with multi-mode fiber cable utilizing the SC-Type connector. The MC200CM supports shortwave (SX) laser specification at a full wire speed forwarding rate. It works at 850 nm on both transmitting and receiving data.

Other features of this module include the ability to be used as a stand alone device (no chassis required) or with TP-LINK's 19" system chassis, auto MDI/MDI-X for TX port, and front panel status LEDs. The MC200CM will transmit at extended fiber optic distances utilizing multi-mode fiber up to 0.55 kilometers.
