Product Description

LPAM-BC3G-26-3SP Low Profile MiMo Cellular Antenna

The LP[G]AM-BC3G-26 range has been designed to provide MiMo Cellular/LTE antenna function for IOT and M2M applications. The compact, robust low-profile housing is weatherproof and contains two antenna elements with effective isolation and correlation covering all current global cellular and LTE bands in freq. range 698-960/1710-3800MHz. The LG version includes an active GPS/GNSS antenna for applications which require position or timing function.

The antenna can be fitted on a non-conductive panel if required and offers easy, quick, secure and weatherproof installation with the single hole mounting bush and acrylic adhesive sealing pad.
