Product Description

Corner Duct self-adhesive 43 x 23 mm - length 1 m white

This cable duct by Delock can be used to bundle and conceal exposed cables that are located in the corner of a room and run from the ceiling to the floor. The cable duct also protects the cables against dirt and damage.

The cable duct is provided with an adhesive tape on the bottom and can therefore be easily and simply attached e.g. to the floor, wall or ceiling. The adhesive tape also ensures a firm and secure hold.

Depending on the diameter and thickness of the individual cables e.g. antenna cables, HDMI cables, audio cables or power cables can be accommodated. Thus the cables are safely and orderly stowed away. The upper part of the cable duct can be easily removed by sliding it out to add or remove cables.

- Self-adhesive
- Reusable
