from **359,58 EUR**

Item no.: 343717
shipping weight: 0.30 kg
Manufacturer: Pi-Top

Product Description

13.3 inch laptop LCD display, gray (EU plug)

The pi-top is a unique and fun way to design your own laptop using a Raspberry Pi board. It's a modular laptop that allows you to use your imagination to experiment and invent. Under the motto "learn, play, create" you will learn programming, data processing and hardware creation with the pi-top all at once. It also works like a normal computer to create documents.

What is included in the scope of delivery?

- 1x laptop pi-top
- 1x 8 GB SD card with pi-topOS
- 1x power supply
- 1x manual
