Product Description

Tablet charging trolley for up to 20 devices, UV-C disinfection, Smart Control, grey

The innovative tablet charging trolley accompanies you on the path to digitalisation and ensures that your devices are always ready for use and charged when they are needed. Safe storage and energy-efficient as well as resource-saving charging technology - thanks to its flexibility and versatility, the UL-certified tablet charging trolley is the ideal companion for your project in education, healthcare, industry, conference venues, hotels and the catering trade. No more worrying about having the right charger for your tablet at hand, because the USB ports with intelligent IC charging control mean you only need one standard socket for up to 65 tablets. A UV-C lamp mounted in each charging level ensures environmentally friendly and chemical-free sterile conditions and improved hygiene. The pull-out and numbered compartments are used for easy assignment of the devices to the individual users.
