Product Description

Home Center 3 Lite

Go your first steps with smart home automation. The FIBARO Home Center 3 Lite has been designed for people who want to start a unique smart home adventure in their apartments or small houses. FIBARO Home Center 3 Lite is the heart and mind of a smart home that constantly cares for the comfort and safety of your entire family. The smart hub manages and communicates with all smart devices - receives data from sensors, processes all the data and gives an output to perform appropriate actions.

Z-Wave technology offers the integrations of more than 2.000 different third-party products. The product works with a variety of technologies and can be used to control electronics and household devices, lighting, blinds, alarms, monitoring or watering systems - with just a single button, gesture or word.
