Product Description

Canakit GPIO Breakout Board for Raspberry Pi

The original Raspberry Pi 40-pin (T-shaped) breakout board designed by CanaKit. Use this breakout board and ribbon cable to use the GPIO connection of the Raspberry Pi to start creating fun electronic projects with your Raspberry Pi! The board is fully assembled and therefore soldering is not required.

- Includes 40-pin T-shaped (assembled) breakout board and ribbon cable
- Includes GPIO quick reference card
- Compatible with all versions of Raspberry Pi with 40 pin GPIO headers
