from **58,50 EUR**

Item no.: 346920  
shipping weight: 0.10 kg  
Manufacturer: DesignSpark

### Product Description

#### Video Capture Module Mounting Bracket

The Designspark Raspberry Pi camera assembly kit by Entaniya is for attaching a 220° lens (super-wide fisheye) with a blue cut filter to the Raspberry Pi Camera V2. This camera is not included in this kit so it has to be purchased separately.

- RP-220 lens included
- Includes a sheet of fibre glass
- Aluminium plate with excellent heat radiation efficiency
- Solid aluminium block cutting parts
- 8 megapixels fixed focus (it's possible to adjust the focus with bezel) lens is included
