

Item no.: 354655

83739 - Active Optical Cable USB 3.0-A male to USB 3.0-A female, 20 m

from **235,81 EUR**

Item no.: 354655
shipping weight: 0.60 kg
Manufacturer: Delock

Product Description

This USB cable from Delock is used to connect USB devices, such as a webcam or printer, to a PC or notebook. This active optical cable is particularly thin and can transmit signals almost loss-free over longer distances. An additional power supply can be ensured via the integrated Micro USB socket and the enclosed Micro USB cable.

Note:

- If the power supply is not sufficient, please additionally connect the included Micro USB cable to the computer
- If you want to connect a hub, we recommend using a device with a separate power supply
- The plugs of the cable can become warm; please ensure sufficient ventilation and do not cover the connections
- The integrated chipset adapts the USB 2.0 and USB 1.1 signals of the devices so that they can be transmitted via the USB 3.0 cable

Package contents

- Active Optical Cable USB 3.0
- USB Type-A to Type Micro-B cable, length approx. 50 cm
- Operating instructions

- Connections: 1x USB 3.0 type-A male, 1x USB type Micro-B female (5 V power supply) > 1x USB 3.0 type-A female
