### Product Description

Description The High Quality High Speed HDMI with Ethernet cable by Delock is particularly characterised by its small diameter and short connectors. The triple-shielded cable combines fast data transmission as well as audio / video and Ethernet connection in one. By supporting a maximum bandwidth of 18 Gb/s, content in 4K resolution (maximum frame rate 60 Hz), 3D content in 4K resolution (maximum frame rate 30 Hz) and content in 21:9 cinema picture format can be played back. The cable enables the simultaneous transmission of two video channels to display video streams for two users on one screen, as well as the simultaneous transmission of up to four audio channels. The quality of audio transmissions is significantly improved by the sampling rate of up to 1536 kHz.
