Item no.: 358032

Zigbee Smoke Sensor

35,⁶⁵ EUR

Item no.: 358032
shipping weight: 0.50 kg
Manufacturer: Heiman

📄 Product Description

The HEIMAN Zigbee smoke detector has an accurate smoke detection and you will be alerted acoustically and visually. In a serious situation, the smoke sensor alerts you with a red LED that flashes quickly and with a loud alarm. In addition, it is possible to receive an alert on your smartphone when you are not at home. This prevents a fire from being caused by smoke and expensive consequential damage.

By using Zigbee 3.0 radio technology, the sensor can be connected to any Zigbee gateway. Thanks to the latest Zigbee 3.0 standard, the smoke sensor guarantees a battery life of 3 years.

- Detects smoke and visible particles caused by smouldering fire
- Notification of fire alarm, even when on the move
- Alarm volume: 85 dB/3m
- Battery level indicator
- Battery required: Yes (1x battery CR123A)
- Battery life: 3 years
- Radio technology: Zigbee 3.0
- Smoke detector complies with DIN EN14604 standard
