

Item no.: 358647

Nano Screw Terminal Adapter

from **15,75 EUR**

Item no.: 358647
shipping weight: 0.10 kg
Manufacturer: Arduino

Product Description

Build robust projects with secure and long lasting connection without the need of any soldering combining the Nano Screw Terminal Adapter and any of the boards from the Arduino Nano family.

Build Arduino Nano board based projects with secure connections using screw terminals and in case you need to add some extra components, you can use the prototyping area.

- Board: Nano Screw Terminal Adapter
- Connectors: Screw terminals: 32 screw terminal connections (3.5 mm pitch, 16 ~ 30 AWG); Connector sockets: 2 double row sockets with 15 contacts each (2.54 pitch)
- Prototyping area: 9x8 grid (2.54 mm pitch)
- Dimensions: Weight: 29 grams; Height: 50.5 mm; Length: 70 mm
