

Item no.: 358000

Water sensor (Zigbee)

from **43,38 EUR**

Item no.: 358000
shipping weight: 0.50 kg
Manufacturer: frient

Product Description

Imagine always having a friend (frient) to protect your home from water damage. Someone who looks after your belongings - and lets you know when a water leak occurs somewhere.

With your new frient, you no longer have to worry about undetected leaks. Place the water sensor (frient Water Leak Detector) on the floor anywhere there is a risk of leakage or flooding. The Zigbee-based water sensor sends you a push notification to your smartphone as soon as liquids are detected. Feel confident that your frient is constantly watching your home - even when you are not present.

Water damage is a costly affair. In the future, prevent water damage to protect your belongings instead of mourning it.

Want your frient to follow the path of water and protect hard-to-reach places? Upgrade your water sensor by adding a probe to it. Stick the detector to the wall and place the probe on the floor - done!

- Dimensions: Ø 60 x 37 mm
- Power supply: Battery 1x CR123A, replaceable
- Battery life: 5 years, reporting every 5 minutes
- Battery level and low battery warning can be sent
- Radio sensitivity: -98 dBm
- Radio output power: +8 dBm
- IP class: IP20
- Operating temperature: 0°C to +50°C
- Relative humidity up to 95% non-condensing
- Range at least 100 metres (open field)
- Siren output 85 dB/3 m
- Standard reporting every 5 minutes
- Immediate reporting in alarm mode
- Temperature sensor range: 0°C to +50°C
- Temperature resolution: 0.1°C (accuracy ± 0.5°C)
- Zigbee 3.0
- Complies with CE, FCC, RoHS and REACH directives
