Manufacturer: Delock

Product Description

This USB Power Delivery (PD) charger from Delock can be used to power smartphones and tablets. It provides various voltages from 5 V to 12 V at the USB Type-C™ port and a power of up to 58 watts. In addition, a USB Type-A port with fast charging technology and a USB Type-A port with 2.4 A are available.

Wireless fast charging The charger supports fast charging up to 10 W for suitably equipped smartphones. For this purpose, the smartphone can be placed on top of the charging surface of the charging station.

Simultaneous charging of several devices All charging ports, as well as the wireless charging unit, can be used simultaneously. This means that up to four devices can be supplied with power at the same time.
